SOMIL MANOJ DHOLAKIA

Mumbai, India | 7977200726 | cs.somildholakia@gmail.com
LinkedIn: linkedin.com/in/somilsomi | GitHub: github.com/somildholakia

EDUCATION

Nirmala Memorial Foundation College of Commerce and Science, Mumbai
Bachelor of Science in Computer Science (2024 – 2027)
SSC – 78.40% HSC – 52.17%
CGPA Progression: 8.45 → 8.83 → 9.18 (Consistent Academic Growth)

TECHNICAL SKILLS

- Languages: JavaScript, C++
- Frontend: HTML, CSS, Bootstrap, EJS
- Backend: Node.js, Express.js
- Database: MongoDB
- Concepts: MVC Architecture, Authentication, Authorization, REST APIs, Middleware
- Tools: Git, GitHub, Hoppscotch

PROJECTS

WanderSite – Full Stack Web Application(Deployed using Render)

(Node.js, Express.js, MongoDB, EJS, Bootstrap) Developed a full-stack listing platform with CRUD operations. Implemented authentication and authorization with owner-based access control. Structured the application using MVC architecture and middleware for validation and centralized error handling.

Weather App – React Application(Deployed using Render)

Built a weather application using a weather API to fetch and display real-time weather data for any location. Implemented dynamic UI updates and handled API integration efficiently using React

.**Leads Tracker – Chrome Extension**
Built a Chrome extension to save browser tabs and manage leads using localStorage for persistent storage.

Unit Converter – JavaScript DOM Project
Developed a Metric ↔ Imperial converter with real-time DOM manipulation and clean separation of logic.

LEADERSHIP & COMMUNITY SERVICE

- Member, National Service Scheme (NSS) – 1 Year
- Completed 140+ hours of community service
- Participated in 7-day NSS residential camp
- Awarded positions in inter-collegiate Street Play competitions
- Awarded positions in Psychology-related events

ADDITIONAL INFORMATION

- Maintaining an 80-day public learning streak on LinkedIn (started January 1) as proof of consistent skill development
- Developing a Web Conferencing Application (MERN Stack) with real-time video calling and chat functionality.
